

TIANJIN NEXT CITY MASTER PLAN  
TIANJIN, PEOPLES REPUBLIC OF CHINA

**PROJECT TYPE:** PARKS, STREETS, HYDROLOGY  
**PROFESSIONAL SERVICES:** PLANNING  
**ROLE:** PRINCIPAL DESIGNER (WHILE AT TBA)  
**CORE CONSULTANT TEAM:** TBA, SOM, BURO HAPPOLD  
**CLIENT:** TIANJIN COMM. DEV. AUTHORITY  
**SIZE:** 16,500 ACRES  
**STATUS:** COMPLETE

**PROJECT CHARGE:** To design an innovative City for 500,000 new residents. Cleansing water from two adjacent rivers, the city was planned as a filtration system through a series of interconnected wetlands, rivers, lakes, and canals. Open spaces consisted of seven primary landscape typologies that treated water quality, provided ecological habitat, and enriched the character of the City by providing a coherent identity for the open space system.
