

## US COAST GUARD SITE SYSTEMS IMPACT ANALYSIS US GENERAL SERVICES ADMINISTRATION

PROJECT TYPE: NbS FEATURE AND  
SITEWIDE SYSTEM PERFORMANCE ANALYSIS  
PROFESSIONAL SERVICES: CLIENT  
ROLE: GSA AGENCY LEAD  
CLIENT: GSA, FDA  
PUBLICATION DATE: 2015

PROJECT: We envisioned, and in partnership with the University of Maryland led, an impact analysis of the design of the new US Coast Guard Headquarters.. The project documented, measured and clarified the cumulative benefits of complex and deeply integrated architectural + site systems, including reduced heat island and improved biodiversity, and the net positive stormwater impacts on downstream receiving waters.
