

**PUBLIC BUILDING SERVICE-FACILITY DESIGN STANDARD (P-100)
US GENERAL SERVICES ADMINISTRATION**

PROJECT TYPE: DESIGN POLICY
PROFESSIONAL SERVICES: AUTHOR
ROLE: CHAIRPERSON-SITE CIVIL + LANDSCAPE
ARCHITECTURE
CLIENT: GSA
PUBLICATION DATE: 2012, 2013, 2014, 2016, 2018, 2020
STATUS: PUBLISHED

PROJECT: The most significant, complex and robust facility design standard in the United States. We authored the standards and high performance site design criteria relating to Federal construction projects for the US GSA six times. This critical steering document contains both spatial guidance and technical criteria used in the programming, design, care, and renewal of thousands of Federal assets located across the country.

P100 **FACILITIES STANDARDS
FOR THE PUBLIC BUILDINGS SERVICE**
